The first successful permeant settlement in Israel:
From the Babylonian to 1870s the idea the Jewish people will return to Israel (ignoring the ones that never left and Mizrahi Jews) was usually religious/messianic missions but never stay there for long and the oldest type of Zionist is religious zionism but started with a combine elements of racial supremacy, nationalism, colonialism and eugenics but in its early years promoted the idea to make a nation state inside of broader multinational empire and promoted assimilation which Theodor Herzl advocate mass conversion of Jews to Catholicism but this early zionist wanted there own self-governance withing various empires in Europe but at the same time wanted a special state in Israel as a cultural center for Jews around the world who struggle and can temporarily live there to improve there economic/social issues but its early reception was negative believing it promotes anti-semetic nationalist sentiments of the time and prefer assimilation, integration and socialist bundist autonomism and the Ultra-Orthodox rejected for religious reasons but the early supporters were the Americans and British Empire but for anti-semetic reason to remove all Jews in Europe without violence and there funds make it possible and the idea of Isreal as a independent ethno-state started in the 1920s the same time when Fascism and Zionism having a alliance but these early Zionist wanted a theocratic Jewish state but the first permanent settlement in the 1880s was a failure that 70% of them (from 1830 to 1870 the earliest form of zionism the religious kind wanted a province to built the third temple) move to America instead and the few that stay started the first documented violence which started the small vicious cycle among Palestinian and Jews in Palestine even among the earliest advocates like Leon Pinsker believe that blacks and women are incapable to create great civilization unlike the Jews and ask the Ottoman Empire to give them a autonomist Jewish monarchy in Israel and in these times (1870s to 1900s) early thinkers like Theodor Herzl subscribe proto-fascist views of Cecil Rhodes and wanted to collaborate with him in his colonization plan which these early thinkers have a racist conception of nationalism that todays Rabbis have to take DNA test to see if they get married the early thinkers believe in colonialization, conquest and race science unlike the Kibbutz establish anarchist society until the Zionist attack the only time when a Jewish/Palestinian peace could have happen.

2025 Coup to put a Fascist Monarchy

There is a long history of non-anarchist socialist betraying the revolution and join forces with reactionaries to defeat anarchist like in postwar Japan the anarchist was attack on both sides by the American occupied government anti-communist campaign, former Fascist that were back in power and the Yakuza persecuted them and even the Japanese Communist Party attack them to maintain there own power while during the war it had a true change to make a successful anarchist revolution but the failure of the Japanese anarchists to realise their vision of a new society can then be seen to have been due to the power of the state against which they struggled, their inability to win sufficient workers and farmers over to their point of view, and the difficulty of getting their message across internationally.

While in Germany in the 1920s to 1930s many communist join the Nazi original paramilitary called SA which got the label Beefsteak and join the Strasserist faction of the Nazi Party a "left wing" faction that was anti-capitalist, anti-communist but wanted a more social democratic economic some even liberal/guild socialist and made alliance between the Nazis and Communist to topple the parliament of Saxony and join a organized a walkout against the parliament.

Soviet Union wanted to be the 4th Axis power and wanted alliance with Nazi Germany but Hitler anti-communism and goals for world Conquest prevent it from happening when the Germans invade Stalin was shock/surprised could not believe the betrayal of there allied.

Freemasons the oldest and largest active secret society in the world, nobody knows when it was founded but scholars show that somewhere between the very end of the early middle ages to early high middle ages in Scotland originally as stonemasons who created there own Catholic Occultism, Esotericism and Mysticism and was a early trade union, many Masons will say it was founded by Althelstan but there is no evidence but there is evidence of David I of Scotland and Malcolm III of Scotland have some connection to Freemasonry in 1051 when making the charter of Lodge of Saint John of Glasgow and the building of Mother Kilwinning in 1140 which this easily debunks the conspiracy that the Knights Templar are precursors to masons there is a 21 year gap between Kilwinning and founding of Templars and a 78 year gap between Halliwell Manuscript and the dissolution of Templars, despite they have interacted they are 2 different groups. Although scholars know almost nothing before the 1500s but the little we do know it was a group of illiterate stonemasons which for unknow reasons allow non stonemasons to join which many people in high society to join and contributed there esoteric beliefs like Erwin von Steinbach, Gilbert de Clare (he massacre the Jews), Alexander III of Scotland, Robert the Bruce (30,000 masons fought with him), William of Wykeham, Ranulf Higden, Henry Chichele, Charles Howatd (Lord High Admiral under Elizabeth I and James I), Paracelsus (started the alternative medicine movement),

Thomas Wolsey and Thomas Howard (courtier of James I and Charles I) but during the reformation many masons adopt Protestantism by all masons (except some more traditionalist Scottish masons).

The Olympics ought to be abolish it promotes sexism, racism, nationalism and has an autocratic control on its athletes we need People's Olympiad as the replacement:
1. The International Olympic Committee actively oppress racial/ethnic minorities especially Africans and Asians
2. Actively oppress LGBTQIA2+ especially trans/nonbinary/intersex athletes based on outdated science, eugenics, sexist (especially women) views
3. It has its own court which does not follow international law which oppress any athlete activism
4. One sided contracts like forcing arbitration clauses on there contracts just in case the people in power want to do SA without consequences
5. Athletes are so extremely exploited, gaslight and abused that there are high statistical changes to suffer from depression and other mental health issues and many despite many sacrifices are broke and financially poor and even if one dies during the Summer Olympics that John Furlong a head of the committee admits athletes are disposable
6. Still promoting gender segregation in majority of sports
7. Heavy surveillance and overall abuse on athletes including there youngest sanction International Children's Games (age 12-15)
8. A culture that normalized abused to make "elite athlete" especially athletes from age 12-19, there is a culture of bullying and the athletes don't have insurance neither freedom of speech
9. Class inequality with many studies shows that access to wealth was a real predictor to Olympic successes not preformism which focused mainly male/white dominate private school educated athletes are extremely more likely compete the Olympics than people who are marginalized
10. Cities that are chosen for the games are financially damage and violate labor laws and abused the homeless

Friendly reminder nuking Japan was state sponsored terrorism completely unjust and also the largest Veterans Organization the American Legion that in the 1920s-30s was a pro-Fascist group especially under Alvin Owsley and give Benito Mussolini became honorary member.

Many cases Non-anarchist Socialist join forces with Fascist:
1. The first fascist state Fuime only the USSR recognized them
2. Various left-wing factions withing Fascist parties before being persecuted like Nazis (Strasserist), Italian Fascist (early national syndicalist), KMT (left faction) and Japan's Cherry Blossom Society wanted State Socialism (but in reality was advocating state capitalism)
3. Left KMT join forces with Fascist Japan
4. Stalin wanted to be the 4th Axis power before Hitler's betrayal
5. Fascist and Marxist join forces many times to defeat anarchist
6. Communist and Nazis join forces various occasions in Weimar years
7. Communist Faction of the Zionist join the Nazis for Transfer Agreement
8. In Spain in the words of Ian Mckay (So it is hardly surprising that the workers of the CNT faced numerous problems and had to develop their self-management experiment as objective conditions allowed them to. Unfortunately, thanks to fascist aggression and Communist Party and Republican back-stabbing, the experiment did not last long enough to fully answer all the questions we have about the viability of the solutions tried.)
9. Bolsheviks model of centralized organization gave foundation to fascist organizations
10. In the words of Nikolai Bukharin in the 12th Congress of the Communist Party in 1923 described Italian Fascist (adopted and applied in practice the experiences of the Russian revolution" in terms of their "methods of combat." In fact, "[i]f one regards them

from the formal point of view, that is, from the point of view of the technique of their political methods, then one discovers in them a complete application of Bolshevik tactics. . . in the sense of the rapid concentration of forced [and] energetic action of a tightly structured military organisation.")
11. In the words of Leon Troysky (Mussolini stole from the Bolsheviks . . . Hitler imitated the Bolsheviks and Mussolini.)
12. Tony Cliff analysis of Lenin one man management (number of effective methods of disrupting th[e] unity [of workers as a class]. One of the most important of these is the fostering of competition between workers by means of piece-work systems." He added that these were used by the Nazis and the Stalinists "for the same purpose.")
13. From 1931 (the birth of the Second Spanish Republic) to 1933 the Socialists had been in a coalition government with the Republicans and had attacked the CNT (a repeat, in many ways, of the UGT's collaboration with the quasi-fascist Primo de Rivera dictatorship of 1923-30). Laws were passed, with Socialist help, making lightening strikes illegal and state arbitration compulsory.
14. Irish Socialist Republicans start there own civil war for power and when IRA control territory it becomes a gang
15. In the words of Marie-Louise Berneri (Thus the Bolsheviks entered into commercial agreements with Mussolini's Fascist Government soon after it assumed power in Italy. On the morning after the murder of the Socialist deputy Matteotti the Soviet Ambassador called on Mussolini. At the very same time when the German Communists were planning the overthrow of the State, the Russian government was not only making trade agreements with the German capitalist government, but even making secret arrangements whereby the Germans could evade the military terms of the Treaty of Versailles by establishing arms factories, and training armies on Russian soil. Wherever a clash occurred the claims of Soviet foreign policy prevailed over the needs of the revolutionary class struggle.)
16. During the summer of 1923, joint meetings were held and both communist and fascist speakers urged an alliance with Soviet Russia against the Entente powers. So, for several months, the German Communists worked with the Nazis, going so as far as to stage rallies and share podiums together. The Communist leader Ruth Fischer even argued that "he who denounces Jewish capital . . . is already a warrior in the class war, even though he does not know it" This continued until "the Nazis leadership placed a ban on further co-operation."
17. German Social Democrats join the Fascist to crush the left communist in German Revolution
18. Litvinov USSR foreign ministers own words (We do not want revolutions in the West)

How Non-Anarchist Socialist laid contribution to Italian Fascism:
After World War 1 many veterans from all sides of political spectrum were dissolution to the war and started to romanticized war and violence when in Fuime was establish was the only example of "left wing/Anarcho-Fascist country despite the anarchist elements like anti-state but it was a hierarchical society lead by monarchist rapist gangs who intimidate actual revolutionary opposition and the 3 major figures of Individualist Anarchist movement in Italy were opportunist that use anarchism as a excuse to make violence for violence sake (even the scholar Stephen B. Whitaker admits the anarchist individualist influence on Fascism is very small to almost nonexistent).
Massimo Rocca, Maria Rygier and Leandro Arpinati were pro-war in WW1 and both Rocca and Rygier work with the state holding positions in government before and after

Mussolini rise to power while Arpinati was the second Duce and wanted to be King of Italy. All of them were kickout during WW1 from anarchist circles for there increasing anti-anarchist views that Rocca developed a position of elite rebellious minority, a libertarian aristocracy and there open refection of morality and altruism (completely ignoring Kropotkin scientifically prove otherwise in Ethics: Origins and Development and Mutual Aid a factor of evolution). Despite there development of National Syndicalism who use anarchist elements of pro-union labour but for pro-state alliance.
Torquato Nanni a socialist politician influence of the bolshevik model wanted a noble elite minority believing we need bloodlust to achieve revolution and the Fascist were just that lets not forget that in Russia early socialist/communist in Russia hated the peasants because they are stupid or a obstacle to the revolution that many of them including Lenin help Russian capitalist to make Russia a capitalist nation by oppressing the peasants so the peasants use this suffering against the rich and do all the dirty work of revolution while the socialist intelligencia who are government officials, land owners and other high class positions maintain there privileges in a socialist society or does that have positive view of peasants believe they are too stupid to do revolution so they need a paternal group to help them (ignoring the peasants values is almost identical to anarchism with the sole exception of patriarchal hierarchy). Lenin's vanguard/democratic centralism was never put in practice in Russian revolution but it did but in practice by Mussolini and Hitler that even Leon Trotsky and Nikolai Bukharin in 1923 admit this hell in Trotsky praise Mussolini in 1920s (which from 1914 onwards when Mussolini make pro-war propaganda he have receive funds by Italian and France capitalist that in 1919 when founded his at the time a decentralized Fascist group a declaration of war against Socialism) . Many Marxist in Italy that influence Mussolini assume private property and marginal utility theory defending the importance of market forces (Sorelians) who combines anarchist Proudhon pro-markets and Syndicalist workers strike and mix it to nationalism (National Syndicalism), Utopian Socialist Charles Fourier ideas of community influence corporatism the same with Pope Leo XIII rerum novarum was put in practice in its economic by Fascist Portugal (Salazar) it shows Bakunin predicted it (marxist electoralist politics) would deradicalise the workers' movement and result in reformism (Germany and Italy) when Mussolini influence by Reformist Marxist and Bolshevik organizational model made pacts with the Italian Socialist Party to crush the anarchist/anti-fascist movement in July 1921 in the words of David Roberts:
[i]n Italy, the syndicalist doctrine was more clearly the product of a group of intellectuals, operating within the Socialist party and seeking an alternative to reformism." They "explicitly denounced anarchism" and "insisted on a variety of Marxist orthodoxy" The "syndicalists genuinely desired — and tried — to work within the Marxist tradition.

It shows that Non-Anarchist approach to socialism will quickly become reactionary and will join the fascist especially if anarchist are winning in any conflict. The left-wing faction of Italian Fascist (national syndicalist) were former member of Italian Socialist Party.
We see examples after Italy that even left Marxist betrayed the revolution like Autonomist Marxist becoming academic high tower elites, council communist/situationist join with the state to suppress the May 68 revolt in France and when Trotskyist most successful movement in Sri Lanka that join forces with the state becoming a peti-elites party helping suppress workers strikes and unions in 1960s-70s or Nelson Mandela maintain apartheid structure and those fascist collaborators maintain there privileges and never suffer the consequences and military invasion of Lesotho and now in Sri Lanka a anarchist (because of its anti-hierarchical structure) pacifist revolt kick out its dictator and now the Marxist National People's Power Party is in charge instead bringing a revolution it continues the marxist tradition of electoral/reformist/legalistic approach. Or Poale Zion Left collaboration with the Nazis (David Ben-Gurion) and when the left faction made thete own party Mapam in 1948 Arabs were not allowed to join despite being a Marxist party, Left Communist Faction of Zionist like Hashomer contribute the Holocaust by helping killing the old and disable and keep the young for recruitment for there own ends, Abraham Gancwajch made its won gang to enforce the gethos or in the words of Yitzhak Greenbaum (who committed massacres and ethnic cleansings):
"when they come to us with two plans the rescue of the masses of Jews in Europe or the redemption of the land I vote, without a second thought, for the redemption of the land. The more said about the slaughter of our people, the greater the minimisation of our efforts to strengthen and promote the Hebraisation of the land. If there would be a possibility today of buying packages of food (for starving Jews under Nazi rule) with the money of the Keren Hayesod (United Jewish Appeal) to send it through Lisbon would we do such a thing? NO! And once again no!"
The Catholic Church collaboration with Fascism:
1. Pope Pius XI, XII did the Conciliazione of 1929 with Mussolini and Reichskonkordat of 1933 with Hitler,
2. Catholic priest Josef Tiso was the leader of Fascist Slovakia
3. Pope Pius XI did alliance with Mussolini to stop the communist
4. Pope Leo XIII economic ideas in encyclical rerum novarum influence and put in practice in Fascist Portugal
5. Pope Pius XII have sympathy with Italian Fascism and maintained anti-semetic doctrines like Jews are the enemy because they kill Jesus (only after his death they remove this doctrine) he is a clerico fascist he prioritize the Church power, privilege and private property than any meta-ethical/moral ontological position, when her heard the

Soviets join the allies he fear a soviet victory means the end of the church and after the war he fear the communist will win the first democratic election.
6. Pope Paul VI smuggle Nazis to freedom after the war
7. Archbishop Marcel Lefebvre founder of Society of St. Pius X support Fascist France
8. Josemaria Escriva founder of Opus Dei allied with Fascist Spain

I can't stress this enough USA is not just being illiberal not just constitutional crisis we are witnessing a coup (self/soft/constitutional/stealth coup) the President is by law a king a constitutional monarch in all but name we have a Nazi Monarchist government Trump have a book of speeches of Hitler since 1990 since 2015 he encourage violence against immigrants by using the police to shoot them in the legs as warning shots, encourage beatings on protestors, described right-wing extremists as "very fine people" he admits that if he lost the 2016 election he would reject the results and accused of fraud like he did in January 6 2020, he joke in 2016 to kill journalist, he spoke positively of Xi Jinping's ability to eliminate his term limits, wants to legalized torture, tweeted Mussolini and overall he is a Nazi Monarch in all but named. He wants his own Reichstag Fire to happen to justify his crackdown of opposition not long after the assassination of Kirk there have been shootings by neo-nazis and lynching's on african americans in Mississippi (people who try to shoot trump were on the right) we may witness american version of The Troubles/Years of Lead:

The US Government remove studies that show terrorist attacks are on the right-wing especially in the military:
According to current statistics, individuals with military backgrounds represent 11.5% of the total known extremists who have committed violent and nonviolent crimes in the United States since 1990.[21] Although this percentage seems small, there has been a growing trend of (former) military members engaging in extremist offenses in recent years. An average of seven people with U.S. military backgrounds per year committed extremist crimes between 1990 and 2010. That rate has risen to an average of 29 people per year over the past decade. Also worth noting is that more than half (52%) of extremists with military experience are identified as violent.

For people who don't understands Fascism according to Oxford Handbook of Fascism and Cambridge Companion to Fascism and the Far Right:

1. It was strongly anti-socialist or more particularly anti-Marxist; it was radical in that it held that the creation of a truly united Italy, without socialism.
2. Former Anarchist (anarchist-individualist) developed a libertarian aristocracy elite and become increasingly monarchist (Leandro Arpinati) inspired by Lenins Vanguard model and joining forces with big landowners and industrialist to crush workers (anarchist were to first to fight against fascist but also being crush by them, Fascist use basic anarchist ideas of direct action, propaganda of the deed, challenge bourgeois morality and syndicalist unions but for hierarchical statist means).
3. Even self declared anarcho-fascist admits they believe in hierarchy is fundamental part of human nature especially patriarchy thus not anarchist at all.
4. Many early Fascist read Proudhon but ignored his anti-hierarchy, anti-state and anti-authority and only adopt his most basic ideas of syndical unions and direct action to bully there opposition.

5. Fascist operate in a system of crony capitalism i.e. one that gave preference to national corporations and pro-fascist business, post-war fascist adopt free-market liberalism and libertarian capitalism.
6. Chronology speaking Fascism was born in United States it was the first country to form under the bases of Racial Supremacy, Anti-democracy (direct/consensus democracy), capitalism, slavery of non-whites and conquest (the founding fathers wanted to imperialized/colonized the Americas).
7. The US Library of Congress in there 1947 congressional report admits that Fascism originated in America they even point to Alexander Hamilton as a founder.
8. Thomas Jefferson may be the founding father of white supremacy in is words:
It will probably be asked, Why not retain and incorporate the blacks into the state, and thus save the expence of supplying, by importation of white settlers, the vacancies they will leave? Deep rooted prejudices entertained by the whites; ten thousand recollections, by the blacks, of the injuries they have sustained; new provocations; the real distinctions which nature has made; and many other circumstances, will divide us into parties, and produce convulsions which will probably never end but in the extermination of the one or the other race. To these objections, which are political, may be added others, which are physical and moral. The first difference which strikes us is that of colour. Whether the black of the negro resides in the reticular membrane between the skin and scarf-skin, or in the scarf-skin itself; whether it proceeds from the colour of the blood, the colour of the bile, or from that of some other secretion, the difference is fixed in nature, and is as real as if its seat and cause were better known to us. And is this difference of no importance? Is it not the foundation of a greater or less share of beauty in the two races? Are not the fine mixtures of red and white, the expressions of every passion by greater or less suffusions of colour in the one, preferable to that eternal monotony, which reigns in the countenances, that immoveable veil of black which covers all the emotions of the other race?

Add to these, flowing hair, a more elegant symmetry of form, their own judgment in favour of the whites, declared by their preference of them, as uniformly as is the preference of the [orangutan] for the black women over those of his own species. The circumstance of superior beauty, is thought worthy attention in the propagation of our horses, dogs, and other domestic animals; why not in that of man? Besides those of colour, figure, and hair, there are other physical distinctions proving a difference of race.

They have less hair on the face and body. They secrete less by the kidnies, and more by the glands of the skin, which gives them a very strong and disagreeable odour. This greater degree of transpiration renders them more tolerant of heat, and less so of cold, than the whites. Perhaps too a difference of structure in the pulmonary apparatus,

which a late ingenious experimentalist has discovered to be the principal regulator of animal heat, may have disabled them from extricating, in the act of inspiration, so much of that fluid from the outer air, or obliged them in expiration, to part with more of it.
They seem to require less sleep. A black, after hard labour through the day, will be induced by the slightest amusements to sit up till midnight, or later, though knowing he must be out with the first dawn of the morning. They are at least as brave, and more adventuresome. But this may perhaps proceed from a want of forethought, which prevents their seeing a danger till it be present. When present, they do not go through it with more coolness or steadiness than the whites.
They are more ardent after their female: but love seems with them to be more an eager desire, than a tender delicate mixture of sentiment and sensation.
To this must be ascribed their disposition to sleep when abstracted from their diversions, and unemployed in labour. An animal whose body is at rest, and who does not reflect, must be disposed to sleep of course.
Comparing them by their faculties of memory, reason, and imagination, it appears to me, that in memory they are equal to the whites; in reason much inferior, as I think one could scarcely be found capable of tracing and comprehending the investigations of Euclid; and that in imagination they are dull, tasteless, and anomalous.
His subjects should often have led him to a process of sober reasoning: yet we find him always substituting sentiment for demonstration. Upon the whole, though we admit him to the first place among those of his own colour who have presented themselves to the public judgment, yet when we compare him with the writers of the race among whom he lived, and particularly with the epistolary class, in which he has taken his own stand, we are compelled to enroll him at the bottom of the column. This criticism supposes the letters published under his name to be genuine, and to have received amendment from no other hand; points which would not be of easy investigation.
Whether further observation will or will not verify the conjecture, that nature has been less bountiful to them in the endowments of the head, I believe that in those of the heart she will be found to have done them justice. That disposition to theft with which they have been branded, must be ascribed to their situation, and not to any depravity of the moral sense. The man, in whose favour no laws of property exist, probably feels himself less bound to respect those made in favour of others.
To our reproach it must be said, that though for a century and a half we have had under our eyes the races of black and of red men, they have never yet been viewed by us as subjects of natural history. Advance it therefore as a suspicion only, that the blacks, whether originally a distinct race, or made distinct by time and circumstances, are inferior to the whites in the endowments both of body and mind.
Now Trump is invading Portland Oregon because ANTIFA took over which ignored the Fact that Oregon is the whites and most racist state in the country is a home for many

White Supremacist and it was the only state founded to be explicitly a whites only state until the 1970s.

Tucker Carlson new 9/11 documentary a conspiracist theories:
1. The government recruited the hijackers which is true but ignoring that the intelligence committee was unworkable and underfunded (which he admits) that they were not aware they will use the planes as missiles and even if somehow they knew they were incapable to stop them.
2. Foreknowledge? just no America did not have any hijacks since 1976 and it was only hostage situations they never tough they will use the planes as weapons that was unheard off and even if they did they were not prepare in America there was NO air defense zone until after 9/11 as a response to the attack, the hijack planes the terrorist turn off the trackers so everyone outside the planes were blind to what is happening .
3. Foreknowledge 2 they notice markets about air travel was suspicious from September 7-10 but after various investigations found just your regular capitalist insider trading to enrich themselves noting new nor shocking.
4. Demolition? no the US Geological survey could not find any evidence of planned demolition.
5. The US government was on a bloodthirsty revenge mindset that any negative comment means war which in Hussein Iraq did just that by him saying they deserve 9/11 the US just few months after war with Afghanistan got plans to invade Iraq because they believe they are connected to Al-Qaeda but fearmonger and dubious reasoning lead to illegal war to Iraq that Bush ignored any evidence to the contrary even if is from CIA and UN they are already made up there minds.
6. Melt steel? it was the planes at that was proven to by a studied from National Institute of standards and technology.

7. Building 7 demolition? no the reason it was collapse because a huge amount of debris from the towers in fact 25% of the towers did structural damage and the fires that give more damage to it after 7 hours on constant damage it collapse.
8. Any blamed to Bush to 9/11 which all i can say is from a quote from Robert Heinlein " You have attributed conditions to villainy that simply result from stupidity"

Given the rise of Christian Fascist/Nationalism in the US what does academic scholarship say about Jesus and the early movement?
"It may be pushing the evidence too far to say that Jesus of Nazareth was “a major political thinker”, but it is no surprise, to return to the quote with which we began, that Alexander Berkman believed Jesus to be an anarchist. He was right", Justin Meggit, "Was the historical Jesus an anarchist? Anachronism, anarchism and the historical Jesus" (2017)
"Everyone claims that the heart of their version of Christianity is expressed by the early church. Nevertheless, some of the early Christian communities seem to have practiced certain features of anarchism.", Steenwyk, Mark Van, and Ched Myers. That Holy Anarchist: Reflections on Christianity & Anarchism. Mark Van Steenwyk, 2012.
"The Book of Acts portrays early Christian communities as communal, like the ideal anarchist communities described by Berkman, Proudhon, and Chomsky:", Lisa Kemmerer, “Anarchy: Foundations in Faith,” in Contemporary Anarchist Studies: An

Introductory Anthology of Anarchy in the Academy, ed. Randall Amster et al. (Routledge, 2009).
"There are solid grounds for believing that the first Christian believers practised a form of communism and usufruct. The account in Acts is explicit:", Peter Marshall, Demanding the Impossible: A History of Anarchism (PM Press, 2009).
"However, what Luke seems to imply by writing “and no one claimed private ownership of any possessions” in Acts 4:32 is that this was taken literally; the Christians really did treat property as though it really was common and no one claimed ownership over their own property.", Roman A. Montero, All Things in Common: The Economic Practices of the Early Christians (Wipf and Stock Publishers, 2017).
"In this way, you could have a community that looks exactly like “communism” in the classical Marxist sense of the world – where all property is owned collectively – without actually having collective property.", Roman A. Montero, All Things in Common: The Economic Practices of the Early Christians (Wipf and Stock Publishers, 2017).
"As Christianity spread from Palestine to the rest of the Roman Empire, there is no doubt that the early Christians united in small, largely self-governing communities where both men and women fully participated.", Kaplan, Temma. Democracy: A World History. Oxford University Press, 2014.
"For example, the Jerusalem group, as described in Acts, shared their money and labor equally and fairly among members. There are also indications of consensus decision making (Acts 15).", Steenwyk, Mark Van, and Ched Myers. That Holy Anarchist: Reflections on Christianity & Anarchism. Mark Van Steenwyk, 2012.
"Some of the early anarchists claimed Jesus as a forerunner of their own views and one contributory theme to that theory was the affront articulated especially by the Anabaptists at any authority being accepted over human beings other than God’s authority (Woodcock, 1986).", Bill Warren, Philosophical Dimensions of Personal Construct Psychology (Routledge, 2002), 153
"In the Christian movement in Judea, under Augustus, against the Roman law, the Roman State, and the morality, or rather the immorality, of that epoch, there was unquestionably much Anarchism.", Piotr Kropotkin, Modern Science & Anarchism

Watching Spirit Science documentary/book (his longest work) the The Conspiracy Theory of Everything (Declassified):
1. We DO NOT live in a simulation/Demiurge he is ignoring Chaotic Inflation, evolutionary algorithms, the nucleosynthesis cascade, crystallization, autocatalysis, and Quantum Field Theory even if the universe is a holograph/digital it still under physical phenomenon proposing someting beyond the physical special temporal world is a non-starter read Reality+ Virtual Worlds and The Problems of Philosophy by David Chalmer (simulation/digital/information realism)
2. There is no synchronicity and collective unconsciousness there is a reason you learn this in humanities and art departments and not in science and philosophy department.
3. Believes in Dan Brown and Bruce H. Lipton ideas of conscious will which ignores all statistics that goes against it (mental health denial and blaming the victim).
4. He just talks about how capitalist ruled the world which that is true but not in the way conspiracist think https://www.youtube.com/watch?v=nOIl8...
https://youtu.be/4J6IPhEkYmo?list=PLj...
5. Water fluoride https://rationalwiki.org/wiki/Water_f...
6. https://rationalwiki.org/wiki/FAQ_on_...
7. He just talks about Manufacturing Consent and the Idol music business being exploited (finally something he is right about)
8. Surveillance that's also true but for the government self interest not controls someone's consciousness.

9. Believes alien live on the moon.....just no ignoring Edgar Mitchell a believer of aliens/ufo never saw aliens on the moon.
10. He cites Robert Lazar a notorious ufo liar that even the ufo community don't trust him
11. Lazar claims Element 115 cannot be synthesize in the lab yet we did we call it Moscovium.
12. believes in reptilian overlords and Project Blue Beam while ignoring the project was suppose to happen in 2000.
13. Believe that Freemasons/Illuminati/Aliens control the world which as a Mason myself i can tell you this is bullshit.
14. Transhumanism is demonic this is only true under a capitalist mentality instead of more liberatory origins read Anarchy and Transhumanism by William Gillis (peer review paper)
15. There is no secret government the closes are intelligence services like CIA a far-right hawks to maintain the states privileges there is no world government the closes we got is United Nations and is useless only under the principles of cooperation and mutual aid base on free associations give any chance of unity.
16. 9/11 conspiracies i already did a post about it.
https://www.youtube.com/watch?v=MrfKz...
17. US government use space lasers for forest fire and control the weather.....just no
18. Philadelphia experiment...never happen https://youtu.be/PY2uuVc8gJI
19. Montauk Monster is real.... is a racoon corpse
20. Mandela Effect... false memories are a thing
21. Chemtrails... https://rationalwiki.org/wiki/Chemtrails
22. Ends talking about how ancient mystics learn the truth not science and philosophy since the 1990s give us more knowledge than any mystic
I Watch Formscapes manifesto (he is writing a book about his metaphilosophy):
1. He believes science abandon empiricism by tech mysticism using dead celebrities like Einstein while ignoring Einstein was prove wrong in 2022 thanks to Bells Theorem that everything is quantum mechanical (he doesn't believe in atoms (there goes the entire field of chemistry), quantum mechanics and general relativity).
2. his entire premises is a misunderstanding how science does research (he is against things like particle accelerators) in science our understanding by
working from the simple to the complex (understanding atoms in terms of elementary particles)
 and to posit an intelligence as the creator and driving force of everything else makes no sense, since it would itself require explanation in terms of simpler underlying entities,
Empiricism of Pierce is full of inference with Wilfred Sellars complex pragmatist naturalist

approach to inquiry when experience provides raw material for knowledge (but not informed concepts that are non-sensory) our contact of the external world is through experience and use language so we can explicitly name and classify in the empirical object-language statements we

take to be true and talking about abstract entities like a platonic god have no explanatory power. Scientific method method is combine with fallibilism, falsification, null hypothesis, statistical method and bayes probability were allows for the fact that modern scientific theories
typically make claims far beyond what can be directly observed and enable us to how this non- empirical evidence fits in, or can be fit in and like Wilfred Sellar in the dimensions of describing and explaining the world, science is the measure of all things, of what is that it is, and of what is not that it is not.
3. science/math is the least amount of assumptions,
simples/minimum requirements (this includes the Correspondence Theory of Truth which is the simplest theory of truth) with the highest predictive value and explanatory power, the scientific method are the best way to settle differences of opinions with the scientific method with his fallibilism can eliminate beliefs with no practical worth and the method will results in views that are objected and impersonal ordinary language will solve philosophical problems and his approach to metaphysics that philosophers
confusing language give false metaphysical statement and creating many pseudo problems which these “problems” are made up creating more confusion and adopting Pierce fallibilism. Were using language for responding sensory experience (empiricism) to corresponded truth statement were language are highly formalized were axioms are determined by definition. This is why the majority

of philosophical schools of thought are meaningless because when it put in practice it does not
work or self-serving thus we must use language similar to Wittgenstein but with a pragmatist approach when language guides our beliefs and beliefs guide actions, actions have consequence and consequence are objective and we use language to describe objective reality and label the facts that corresponded reality and these decisions will manifest themselves in forms of controlled and predictable experiences and reject philosophies that use language that rejects the pragmatist
approach will always fail no matter how many arguments, premises and logical deduction you
make you have to use that information into committed actions. Wilfrid Sellars

another pragmatist that influence me when reading Empiricism and the Philosophy of Mind using scientific model of peoples behavior and language which empiricism like science is self-correcting (science are one of the few remaining places that is truly democratic place for ideas). A hypothesis must conform to expectations set by background knowledge which rely on the fewest assumptions and include fewer new suppositions, it must make evidence which observation statements implies more probable than any other, it must not contradict any evidence/contradict much less than any competing theory and must explain more of the evidence than any other hypothesis. Natural patterns of matter, energy and space time according to the laws of physics is absolute.
5. He believes particles are not real but beyond physical while ignoring they are physical knowing how casual closure
6. He has a oudated view of empiricism because we know is more complex we know that the universe and sensation are
reducible to mathematical rules and patterns even when things we consider chaotic we still collect data because of patterns and our conscience is like a computer because everything has physical parts (atoms and elementary particles) and he ignores the entire position of realism and we current data nonlocal realism.
7. How we know color works there are physical explanations like the color red in a apple it just us humans absorb and reflect
frequencies of photons (thus redness does not exist) and vibrate at the right frequency that set casual chain of electrical signals that activates brain circuits to create these made up colors this qualia are produce by physical circuits in the brain (people can be wire differently like being

immune to qualia, qualia inverted and synesthesia).
8. Do propose any beyond the physical spacecial-temporal world is wrong (he believe in transcendence, Christian Jungian metaphysics and cosmic consciousness) by quantum mechanics (which he rejects) proves this in the Stanford Encyclopedia of Philosophy (Sometimes it is suggested that the indeterminism of modern quantum mechanics creates room for sui generis non-physical causes to influence the physical world. However, even if quantum mechanics implies that some physical effects are themselves undetermined, it provides no reason to doubt a quantum version of the causal closure thesis, to the effect that the chances of those effects are fully fixed by prior physical circumstances. And this alone is enough to rule out

sui generis non-physical causes. For such sui generis causes, if they are to be genuinely efficacious,

must presumably make an independent difference to the chances of physical effects, and this in itself would be inconsistent with the quantum causal closure claim that such chances are already fixed by prior physical circumstances. Once more, it seems that anything that makes a difference to the physical realm must itself be physical).
9. Use outdated Jung/Freud view of Ego and unconsciousness despite no current psychoanalysis use them anymore as more focuses of empiricism and scientific method.
10. All his sources are over 80 years old (with the exception of Rupert Sheldrake) and ignoring all the progress of science, math and philosophy since 1990s.
11. Karl Popper never wanted science to abandon metaphysics that's logical positivism (which he was against) he believes in metaphysics his last book was making a case for substance dualism (he believe in 3 things mind, matter and platonic realm of ideas) he is confusion todays fallibilism, falsification, statistical method, null hypothesis and Bayesianism.
12. He think there are no physical explanation of thought while ignoring he have footage of memory in 2015 successful brain preservation program that freeze all memories at a certain point then scan the
frozen connectdome and convert it to a digital file where memory can be stored in a certain pattern of connectivity between engram cells where in surgery after frozen after a certain temperature the memories are store and can be recover, studies shows that consciousness can be produce computationally by 30 milliseconds to generate and footage of the molecular basis of memory). https://www.youtube.com/shorts/6MCf-6...
13. Rely on Synchronicity and Collective Unconsciousness there is a reason they only teach it in arts/humanities instead of science/philosophy
https://www.skepdic.com/jung.html
https://www.skepdic.com/collectiveun....
14. There reasons that everything is reduce to physical:
https://scholar.google.com/citations?...
https://scholar.google.com/citations?...
15. His entire philosophy (metaphysics/ontology) is based on a false premise that science rejects metaphysics/ontology (that's logical positivism), empiricism and his prefer version of religious/spiritual naturalism

Did you know the oldest known Quran is the Birmingham manuscript written between 568 and 645 but it only has 4 pages it contains:
1. Has the Companions of the Cave which is based of a older Christian story of the Seven Sleepers of Ephesus. It also establish we don't have free will and if a person who lives a righteous life but is a atheist will NOT go to heaven.
2. In Quran 19:91-98 contradicts previous statement above that people who are righteous will be rewarded unless your atheist.
3. Quran 20:1-40 that you should fear Allah while saying he is the most merciful despite making a hard determinism view of free will so people are made exclusively to go to hell and tells a story how Moses (who does not exist btw) meets God for the first time from a fire.

Given that Mexico drug war is one of the 3 or 4 deadliest wars currently happening (the others are Russian-Ukraine, Sudan Civil War and Ethiopian Civil War) given that ~3% of the Mexican economy is controlled by the Cartels, 30% of the Mexican government has either shared controlled or no controlled with the Cartels. The US refused to take accountability because 75% of all weapons are smuggle from the US primary Texas to Mexico, the Zetas who revolutionize brutality that is now common were founded by

Special Forces units with training from the elite Delta Force (despite the elite image of US Special Forces like Delta Force, Navy Seals, Air Force Pararescuemen have a mix track record) other examples of the US complicit of crime lords like active collaboration with Afghan war lords for decades, support Fascist dictator of El Salvador Bukele which has been exposed being connected with Gangs despite his war in crime rhetoric. CIA long history of making there own drug empire creating the world's first global drug empire/connection by promoting and protecting the Opium trade, US support the Fascist/KMT controlled China despite being a narco state (opium) which Paul Helliwell was in charge the Opium trade in China to defeat the Maoist, CIA use Operation X and Operation Underworld to create Herion trade in Southeast Asia (mainly Thailand), created a multi-ethnic supermafia to combat any left wing sentiments, CIA brought Crack to US by collaboration with Central American reactionary groups like the Contras, help a Nazi to make a Coup in Bolivia which give easy and legal access for Pablo Escobar causing the mess that Mexico suffered today, CIA give a drug lord Manuel Noriega power in Panama or the most powerful Cartel the Sinaloa was founded by a former intelligence service and secret police agent Juan Jose Esparragoza Moreno (although right now the Sinaloa is having a Civil War with factions killing each other for power). To actual stop this is not war which history has shown but instead a multi action approach like stop weapons smuggle which has been overlooked, change the gun culture in the US which has historically been helping White Supremacist, completely decriminalization and legalization of drugs and sex work (they will lose half of there wealth because is no longer taboo), a decentralized society like the Zapatista (Zapatista controlled Chiapas is anarchist and pacifist society and is the only place in Mexico that the Cartels have no controlled). A mix of Anarchism, Pacifism and Drug Liberation is the answer

FDR i consider the the US 2nd best president first being Lincoln but here are the things he did was against the people:

1. But the only Fascist dictator in Puerto Rico Blanton Winship was put by FDR to stop the Nationalist Party which cause the Rio Piedra Massacre and Ponce Massacre
2. House Un-American Activities Committee
3. Concentration Camps to Japanese Americans
4. Smith Act
5. Quietly supporting Fascist during the Spanish Civil War that Dwight D. Eisenhower when he was just a military figure praise Franco's victory viewing the Anarchist and the Spanish Republicans are a existential threat
6. Congress of Industrial Organizations join the state and expelled 20% of its members for left wing views
7. He never held the rich elite accountable for funding Fascist Italy and Germany which help them to start WW2 to being with

8. Violating the First, Fourth and Fifth amendment
9. Creating the FBI which developed close relations to crime and violate the constitution to suppress Anarchist, Communist, Socialist, Feminist, Pacifist and Unions but never Fascist, KKK and other reactionary groups until Pearl Harbor before that J. Edgar Hoover give a personal invite to Heinrich Himmler in 1937 Police Conference
10. Allied with the Capitalist instead of Unions after the 1937 massacre
11. Never ended Jim Crow during his 4 terms as President
12. Allow Eugenics and Force sterilization
13. the Wagner Act
14. 1938 and 39 with rising unemployment, Roosevelt cut programs for the poor and unemployed
15. Made friendly relations with Fascist dictators like Getúlio Vargas (Brazil), Rafael Trujillo (Dominican Republic)

The real origins of Mexican War on Drugs (spoilers it was started by the Mexican military/police that started the drug business and use cartels as excuse to maintained there permanent the local militarizes warlords)
Luis Astorga:
In the field of power, traffickers have historically been subordinate to the government. They have not been in competition with it or have tried to compete by creating associations or political parties; nor have they developed a far-reaching "infiltration" strategy to reverse this subordinate relationship.
There is isolated corruption, especially within police departments, but not an agreed-upon plan between criminal organizations or a conspiracy to drive a systemic change that would "test" the president. In other words, the traffickers are some of the social actors whose activities and actions undoubtedly hinder governance, but do not pose a threat to political power or the direction of the state.

Ignacio Alvarado:
Violence in Mexico is not explained by a war between drug traffickers or a dispute over plazas. Moreover, there is no single drug trafficker with the capacity to challenge institutions such as the Army, the Navy or the Federal Police; not even the recently [imprisoned] Joaquín "El Chapo" Guzmán.
Nothing supports the government's story. Drugs are only the pretext at the heart of the violence. The US State Department's influence on this issue is crucial. Mexico's judicial, energy, tax, and education reforms are being driven by actors at the highest levels of US government —with capital interest in mind— and the Mérida Initiative is the perfect instrument for the social and political manipulation of the country. The goal of this system of terror is exile: the depopulation of immense territories that are rich in

hydrocarbons, minerals, and water. Today we can see how the energy sector has been affected by such reforms. Private and foreign capital that has been waiting on this moment for two decades can now exploit these natural resources.

Dawn Paley:
The war on drugs is a long-term fix to capitalism's woes, combining terror with policymaking in a seasoned neoliberal mix, cracking open social worlds and territories once unavailable to globalized capitalism. This project is about re-thinking what is called the war on drugs: it isn't about prohibition or drug policy. Instead, it looks at how, in this war, terror is used against the popula-tions in cities and rural areas, and how, parallel to this terror and resulting panic, policies that facilitate foreign direct investment and economic growth are implemented. This is drug war capitalism.

Etc:
This official monopoly on the discourse of the narco is possible because the history of drug trafficking in Mexico is derived from the history of state prohibition. In other words, state prohibition is the condition of possibility for the existence and development of organized crime; all the more reason for the state to invent the language we use to describe it. Astorga has aptly documented how the Mexican state disci-plined and subordinated criminal organizations during the second half of the twentieth century, forcing them to operate under the control of the Institutional Revolutionary Party (PRI) until the mid-1990s. With drug trafficking deemed a national security issue under absolute state control, the military and police conceived of a smooth and orderly drug trafficking system with a reduced rate of violence.
With the fall of the PRI, the police state was gradually dismantled dur-ing Vicente Fox's presidency, whose inability to articulate a national secu-rity policy allowed new criminal associations between governors, local businessmen, and drug traffickers in states such as Chihuahua, Michoacán, Nuevo León, and Tamaulipas. It was in this context that during Felipe Calderón's presidency, the so-called "War on Drugs" was put into place. Michel Foucault, that the lack of a rule of law and its subsequent violence actually implies the absolute, orderly, and effective presence of the state. In other words, after the unprecedented wave of homicidal violence, perhaps the most aggressive biopolitical pro-gram in modern Mexican history—far from being a failure, the Mexican state has prevailed. Mexican state sovereignty and its relationship with drug trafficking, it is necessary to remember, according to Luis Astorga, that drug trafficking in Mexico developed under the absolute disciplinary control of the country's political and police system (PRI). Operation Condor and the subse-quent War on Drugs are largely the factors that "laid the foundations for modern drug cartels," allowing the state to manage the drug trade through-out the country by means of the Army and Federal Police.

Mexican state kept criminal organizations under a rigorous subordination until the mid-1990s, in the way violence is Integrated into a new local power structure, narco operated with police departments under the political motivations of the political and busi-ness class during those governments with the common objective of build-ing semiautonomous and independent jurisdictions independent of central federal power. The Golden age of Narcos ended in 2006 this war is like Afghanistan unjustly continuation despite evidence of the states claims.

A study conducted by the Drug Policy Program at the Center for Research and Teaching in Economics (CIDE, in Spanish) showed that the armed forces' rate of lethality grew dramatically during the War on Drugs ordered by Calderón. Between 2007 and 2011, according to the study, 86.1 percent of murdered civilians who allegedly confronted the Army and fed-eral police were killed with "perfect lethality," that is, in confrontations where all enemy combatants were killed with no survivors left. All this without Federal Ministerial Police investigations that could prove that the murdered civilians had some link to "organized crime." The Mexican Navy has the highest lethality rate: 17.3 deaths for every civilian injured. This is followed by the Mexican Army with 9.1 deaths per injury and then the Federal Police with 2.6 deaths per injury. CIDE researchers also point out that violence increases by 6 percent with each combat and over a period of three months. And even more serious: of the 3,327 documented clashes, 84 percent were actually caused by the Mexican Armed Forces. Only 7 percent were direct attacks against the Mexican Armed Forces. Alejandro Madrazo, one of the CIDE researchers, interprets the data unambiguously: "The high lethality and perfect lethality levels are a very strong indication that we are facing extrajudicial executions or the excessive use of public force." The sovereign power of the PRI government that disciplined the narco between the
1970s and 1990s. Fernando Escalante Gonzalbo explains,
that the murder rate at the national level had shown a significant decrease
before the militarization of the country. Starting in 2008, with Army and
Federal Police intervention, the murder rate in various areas of the country
increased by up to 1,000 percent. A study by the think tank México Evalúa
shows that most of these victims were lower class men with minimal educa
tion, between twenty and forty years of age, while the profile of the alleged
sicarios detained by the authorities only differs from this profile in that they
were five years younger on average, the PRI kept
organized crime on the margins of political power for decades by using a
violent repressive police system, state forces—
from the Federal Police to the Army—bear a great responsibility in the dis

appearance in 2014 of the forty-three normalistas in the state of Guerrero El Chapo was not the boss the great cartel but at the mercy of that network the STATE.
There is no cartel war in energy sectors but rather transnational corporations laying siege, along with
the interested cooperation of the Mexican political class, Wikileakes reveal US Department of State strategy to influence Mexico's energy
reform. With the democratic transition in 2000, the police state
became a security state with local police/politicians have autonomous power without the need of federal system and use the cartels as scapegoats and canon fonder. 800 percent increase in the mur
der rate made Juárez "the most violent metropolis in the world." "It has a lot to do with the fact
that some soldiers have been co-opted by drug trafficking ICE implicated in the killings.

The Mexican military, they suspect, could be using the crisis to facilitate, or
even get involved in a campaign of what they call "social cleansing" of the
human dump: the undesirables, the drug addicts, the vagrants and the petty
thieves or more than the petty thieves. The Army practically did not dispel
this idea when, in a press conference on April 1, 2008, Jorge Juárez Loera,
the general in charge of the eleventh military district (of which Juárez is a
part), described each death that occurred under his surveillance as "one less
criminal." crime cannot be fought with crime. Neither should the severity of a crisis
become justification for the use of illegal methods or a pretext for turning a blind eye
when abuses are committed. The aim of this report is to highlight a grave pattern of
recent human rights violations perpetrated by members of the Mexican military and to
call on the civilian and military authorities to take immediate and effective steps to halt
and remedy such abuses. hundreds of reports of cases in which citizens of
Juárez and other parts of the country were kidnapped, tortured, and mur
dered at the hands of soldiers sent by Calderón in what was known as the Joint
Operation Chihuahua. The purpose of the DFS was not to contain drug violence, but on the contrary to manage
it and unleash violence against the pro-communist/socialist/anarchist left. Has reported, seven out of ten
attacks against journalists in Mexico are perpetrated by state agents.

Fun fact that fist attempts of Marxist states in pre-1917 only lasted 2 weeks and at best 1 year while the presents made there own peasant socialist state for 3 years which these Marxist thought peasants aren't capable of socialism without a intellectual elite.
While early attempts by anarchist lasted longer like Pirate Republic (22 years), South Carolina Commune (6 years), Paris Commune (2 months), Cantonal State (1 year but was suppress by early republicans), Strandzha Commune (1 month), Magonista Baja California Commune (6 months), Morelos Commune (4-6 years and was the most stable government during the Mexican revolution), and Naissaar (1 month until were massacre by the combine might of Bolsheviks German Empire).
The idea Humans are violent by nature is a myth a 4 year study by University of Grenada was doing research what is the most violent mammals and Humans are not even on the top 30 (in fact all apes did not make it the top 30) only ~2% of all human deaths are caused by other Humans (homicide)

People pacifist/nonviolent resistance has always existed even in the most violent periods in human history like An Lushan Rebellion, Mongol Conquest, Atlantic/Mid East Slave Trade, Genocide against the indigenous population of the americas and Timur the Lame with the few surviving accounts use sabotage on trade routes, bribe, religious figures promoting nonviolence and peace, use religious buildings as safe heavens from violence, help hide escape slaves, peaceful negotiations to prevent wars, anti-work ethics (from slaves to discourage slave traders/owners) and in rare occasions successful court cases for slaves.

America was always founded under the principles of Imperialism, Colonialism, Aristocracy, Plutocracy and Autocracy. The Founding Fathers wanted to conquer all of the Americas then the Confederacy wanted there own slave empire and by 1830s to

1910s try to be there own version of British empire and now the Military bases as a new approach to empire building.

The greatest general that no one talks about is John Zizka who was undefeated and lead many battles while he was blind and was part of a Christian Anarchist-Communist society from 1419-1421 but maintaining there stronghold until 1451 while Americas greatest General (when it comes the most victories) Douglas MacArthur colonized Okinawa give it to Japan without consent of the indigenous population, help the rise of the Yakuza, wanted to drop multiple nukes of the Korean peninsula and was the mind behind the current Cuban blockade which is considered a slow genocide and he was responsible of the horrific Bombing genocide in North Korea which wipe out 25% of the population. Also he suppress veterans during the Bonus Army march and wanted to Nuke China and reestablish Fascist KMT Controlled and between 1930-1934 whe was a PDFile having a relationship with Isabel Cooper as a concubine she was 14 years old while he was 50 he even had to hide this relationship from his mother

Given the US is officially in all but name a Constitutional Monarchy if we look the longest reining monarchs like Sobhuza II who was crowned at 4 months old his time in power he

abolish unions and persecuted workers and supported the Capitalist or Louis XIV who was crowned at 4 years old who built the first true centralized power in Versailles where it was a glorify high school/college frat house were all nobles are in constant fear and Surveillance who use a constant state of party, gambling and other pleasures to distracted them from any change to overthrow him (similar to Brave New World by Aldous Huxley) some even result to satanic magic and black magic underground market to help them to have better relations with the Sun King. He view workers as expandable not caring for there deaths from his neglect, treats women as sexual objects for his pleasure or the oldest continues Monarchy in the world is Japan where the same family ruled the Island for starting with Sujin in 97 BC a family that controls the country for 2,122 years with 152 heads of states. To give a example Himiko the first person to establish a state in Japan Emperor Seimu the 4th ever emperor in the Imperial family die the same year Himiko became Queen of Yamataikoku or the Ptolemies the most inbred Royal Dynasty ever which Cleopatra was part of the family which fathers/mothers married there son/daughters or brothers and sisters when mesuirng for inbred or COI at worst Cleopatra is 28.5% inbred but her possible mother was the most imbred family member in her Dynasty Cleopatra V with a COI of 42.7%.

Examples of US Colonialism and Imperialism in Boriken (Puerto Rico):

On occasions force starve the population to submission, the Junta is a shadow government controlling the island not the official state government, privatized power grids, US not allow other countries to give supplies to PR without US approval, PROMESA Bill allows provision cutting minimum wage to $4.25 for workers under age 25. HUD withholds $18 billion in disaster aid, built military bases and forcefully relocated thousands of people and pollute the environment, in 2020 survey 41% of the population wanted independence but when the elections arrive remove the independence option from the vote,, George Whitefield Davis force Boricuas to migrant to the Panama Canal to work on it, Insular laws the most racist law in American history that is still enforce that according to Joseph Cannon (US Representative) Boricuas are ineligible for statehood for not being white, Charles Allen use to personally own almost half of the Island and control 98% of US sugar and have the largest sugar company/factory in the world based on banana republic style of slavery the company still exist is call Domino Sugar, between 1930s-1990s US government have kill over 4,000 people for supporting independence, PR paid 200% more taxes than US despite being twice as poor as Mississippi the poorest state, PR consumer prices are 20% higher for every product than US, tax heaven for Americans (Act 60), paying 15% higher sale tax than US, paying 200% more electricity , a 2018 list of the poorest and most crime ridden place in US half of the list is from PR, homicide rate is 622 per 100,000, 45% of the population live below the poverty line, taxation without representation (great American irony), non-voting members in Congress, fracking by US Corporations, late

1960s over 80% of housings was made by private sector but 59% of the population could not afford the houses and since then got worse, has the second largest police force proportion to population (first being New York), the last segregated military unit in the US armed forces was a Borinqueneers. J. Edgar Hoover gave a permanent order to FBI to undermined PR Independence, multiple cases of human experimentations to "fix" the population problem by force sterilization, eugenics and experimental contraception without there consent which 1/3 of all women loss the ability to give birth, laws to force sterilized Boricuas, US Navy years of bombing Vieques that kill many people and its chemical experiments that the people in Vieques has 30% higher rate from cancer, 41% higher from diabetes, 95% from cirrhosis liver disease, 396% from hypertension, United Nations has admitted that PR is American colony and have committed genocide in the 1970s and the International Action Center admits the US commits colonial crimes like violating there own constitution to keep PR, enforcing PROMESA Bill which violates the Null and Void Process of 1952, during World Wars using human experiments like medical testing on PR soldiers like locking them in chambers and subject them to various gases (like agent orange), from 1950s-1980s committed genocide by force sterilization that over 35% of the female population are sterilized which is the highest in the world and (debatably) higher than Nazi Germany, enrollment in schools has decline by 40%, ~650,000 Boricuas use food stamps, They are second class citizens by law (Foraker Act), Jones-Shafroth Act allow municipal investor to do what they want regardless of budget, has one of the most extreme cases of depopulation in the world comparable to Ukraine (a drop of 25%), over 5,000 white Americans who are rich move to PR to avoided taxes and make there own colonial projects while the natives pay 36% tax (while PR own over 70 billion dollars in debt) by skyrocketing housing prices, displaced families, loss of schools, loss of public buildings, loss of public spaces and mistreated/poor paid workers and these rich colonizers removed access to public beaches and turn into private clubs, PR is not allow to do business with other countries while is a US tariff free trade between US and PR, (if PR was allow to keep its wealth they could have been in the top 10 richest countries in the world and during the early 20th century was once the 4th largest coffee industry in the world and the current pharmaceutical capital in the world), 6 years after being conquered by US they did a human zoo expending Boricuas in 1904 world fare, PR whole economy is produce what they cannot consume but give it to US, while various business use price gouging thanks to the John Acts this act cost PR 1.4 billion of dollars a year while 40% of the population are food insecure. It has over 500 Superfund sites destroying the environment the US laws give PR a permeant low wage wage slavery stealing there wealth that profit Borcuas made was taken from them in 2008-2017 the US stole 334 billions dollars, PR is 1 in 3 places in the world that lose more than 30% income generated withing there territory (the others are Iraq and Equatorial Guinea), raised the retainment age to 67,

when the US eliminated the PR dollar the natives loss 40% of there wealth and under US law can't control there economy but they have bonds they have no federal/state/local tax and because PR are not legally allow to declared bankruptcy so in 2011 PR sold 1.1 trillion dollars in bonds which over 800 millions was to paid there illegal debt we own 123 billion dollars in debt when include pension obligations and Wall Street loves us to suffer use 37.8 billion dollars of debt from Capital Appreciation bonds raising interest in extreme degrees to the point US declared PR bonds as junk therefore PR lost the ability to borrow money so Vulture funds come in to paid off a countries debt for pennies on the dollar from bond holders then drag the indebted to court to demand full repayment. Vulture funds control 50% of PR debts or US out a undemocratic institution La Junta the real government with no democratic oversight many of them are New York business men/lawyers (some of them make more money in a day than a Boricua makes in a year) who started the problem to begging with and ruled the government and steal every wealth from the natives for the next 40 years by raising bills, remove workers protection, remove education budget and removing days off from work, Hurricane Maria the 4th deadliest in history when it comes to death toll Trump insulted the dead and throw paper towels like a ball and treated us like lazy bums PREPA was handed over to private companies with no vote no democratic oversight and force to paid LUMA (50% is own by Houston Quanta Service and the other 50% by Canadian Utility ACTO) for the next 15 years with annual fee of 125 million dollars and companies are against the island having green energy despite having the perfect conditions for it (only 7% of all energy is green) because it makes more profit by importing oil (PREPA use to have a oil cartel scheme which overcharged PR residents in Electric company and now with the new anti-transparency so the Junta gov can hide documents easier for crimes, whoch makes PR ranked below to Iran when it comes to public recordtransparency), with non existing education only 800 school in the entire island while 54% of children are in poverty while Junta reduce the most prestigious university UPR budget to 50% while raising tuition by 300%, PR use to have free healthcare the only place in the US until 1993 was privatized which only 9,000 doctors in a island of 3 million people the same population that has higher rates of asthma, diabetes, HIV/AIDs and pre-term births than any US state, we have less children than any country on earth competing with South Korea, Taiwan and Hong Kong while many White Rich Americans created segregated communities that doesn't allow the natives in there own land PR is the 5th most unequal place on earth with only Brazil, Colombia, Belize, Botswana and Eswatini being worse a textbook example of kleptocracy.

When you learn the chronological history of Fascism (France, Italy and Germany) you notice a pattern that all of these early/proto thinkers have a pro-colonialism/imperialism, elitist, believe in natural hierarchies/aristocracy, superiority of there respective races, eugenics and Nations is supreme which the US Founding

Fathers all share these sentiments (Thomas Jefferson, Benjamin Rush, Alexander Hamilton, John Adams and etc.) And The Confederate States of American was the logical endpoint of Jeffersonian "Democracy"
Many of people on the left automatically defend Maduro as anti imperial while ignoring all states/hierarchy are illegitimate he kill, tortured, prison and dissappear his opposition (both left and right), selling his oil to his buddies instead using this wealth to improve the people, his own Imperial ambitions to annex Guyana for there resources, all his elections after 2015 were illegitimate, he believed Chavez was reincarnated as a bird to give him a blessing as the legit leader, Anti-Semetic despite having Jewish ancestry, support Fascist Russia invasion of Ukraine if you truly support Venezuela not only you must resist American Imperialism but support the Anarchist Indigenous Communes which are the last true resistance within Venezuela.

"Sariputta, when I know and see thus, should anyone say of me: 'The recluse Gotama does not have any superhuman states, any distinction in knowledge and vision worthy of the noble ones. The recluse Gotama teaches a Dhamma (merely) hammered out by reasoning, following his own line of inquiry as it occurs to him' — unless he abandons that assertion and that state of mind and relinquishes that view, then as (surely as if he had been) carried off and put there he will wind up in hell.[13] Just as a bhikkhu possessed of virtue, concentration and wisdom would here and now enjoy final knowledge, so it will happen in this case, I say, that unless he abandons that assertion and that state of mind and relinquishes that view, then as (surely as if he had been) carried off and put there he will wind up in hell."
Despite what little scholars know what the historical Buddha positions in philosophy and theology he was mostly quietist approach to metaphysics and ontology avoiding any essentialist and skeptic/atheist/naturalist views, he hold the standard views of his time a soul/consciousness, reincarnation (also escape to cycle to stay in a permanent afterlife state) and karma (although Quantum mechanics of cause and effect and Quantum indeterminacy refutes karma directly and refutes his dependence rising view of cause and effect because he was against any atomistic explanation) but his most important and controversial position is the no-self doctrine which means personal identity does not exist is a illusion despite all empirical evidence from neuroscience, psychology and any field withing cognitive science disprove this there is a personal identity or the self a psychological view of personal identity. Our empirical evidence our consciousness is physical there is no substance independence from the brain thus no afterlife/reincarnation and even survival is possible from physics if we give what we can know from Academic Parapsychology and there evidence for survival all points to permanent afterlife and the reincarnation thesis is not taken seriously even among parapsychologist. The Best critics are Kieran Setiya, Evan Thompson, Dan Arnold, Richard Hayes, Paul Griffith (from a Cartesian Substance Dualist perspective), Jan Westerhoff and Avi Sion

House Bill 469 to ban artificial intelligence from marrying humans or gaining legal personhood. The proposal defines AI as “non-sentient entities,” preventing systems from owning property, running businesses, or holding human rights. (If AI developed consciousness will developed Personal Identity and thus a person by default we are already making laws to discriminate entire groups like we did in the past with women, LGBTQIA2+ and marginalized (race/ethnicity/nationality) groups)

For any self declared Stalinist and Maoist every example of Marxism turn in State Capitalist dictatorship that collaborate with Fascist and other reactionary groups to suppress anarchist when they achieve anarcho-comminst society (Spain, Ukraine, Korea, Vietnam, China and Hungary) while there is no current Marxist state (North Korea is monarchy while China, Laos, Vietnam and Cuba is State Capitalist) while we have anarchist societies like Rojava (4 million people until this week was suppress by Turkey and Syria), Zapatista (400,000 people), Sri Lanka Sarvodaya Shramada (4 million people) and Zomia (geographic size of Europe with 100 million people rejecting the state for 2,000 years.

For Democrats who are questioning how we got here while ignoring Trump has a long history with the KKK, has a book of Hitler's speeches since 1990 and as early as 2015 who argues for shooting immigrants on the legs, Muslims banned from the country, when a African American was attacked by Far Right extremist whe encouraged the violence against the African American and Steve Bannon admired Mussolini who help wrote his 2016 inauguration said that he thought "that's Hitler" when he saw Trump descend from the Trump Tower elevator in 2015. This is the same man when he was part of Trump administration we wanted the government to adopt the Fascist philosophy of Julius Evola and Aleksandr Dugin and Trump as early as 1971-1982 was practicing Housing segregation to African Americans and Puerto Ricans

The ultimate proofs that hierarchy must be abolish:
1. Epstein Files/Class
2. Practically every war was cause by hierarchical societies (An Lushan Rebellion, World War 2, Taipining Rebellion, Mongol Conquest and Timur the Lame Conquest)

3. Atlantic Slave Trade and Middle Eastern Slave Trade
4. Genocide against the indigenous people of the Americas
4. Christopher Columbus actively wanted to end the world for his Christian beliefs
5. Cuban Missile Crisis

Given the Epstein files there is a lot of misinformation which undermines any actual crimes the people in power will never face persecution for it here are the empirical facts what is true:
1. Epstein did indeed unalive himself he already try weeks before and 2 days before he successfully unalive himself he wrote his will he already decide to end it all
2. There is no list they are confusing a log book that catalogs everybody who contact with him which most of them are not predators/criminals but his friends/acquaintance are the ones who committed assaults against girls from the age of 12-17
3. He was a mathematical genius who was also a psychopathic social climber who cares about a image so he always surrounded himself with millionaires and billionaires
4. He did not blackmail people for political or for someone else he mainly blackmail the victims and the few people that he did blackmail like his co-conspirators is to keep the child trafficking
5. He is not a MOSSAD/CIA agent he did work for people who were part of the intelligence service for his own benefit like weapons smuggling at times where he has any actual connections with Israel or Russia was more of a useful idiot that pay him to say the right things that make them sound good
6. He make his wealth was from a Ponzi Scheme one of the largest in American history, weapons smuggling to the Contras, gets pay by the very rich for him to collect debt, white collar crimes, insider trading and help them to avoid taxes and the leader of the Paradise Papers
7. NO cannibalism happen, no babies are consumed the images are from performance art piece
8. There is NO any satanism in anyway all the evidence of Baal is from a typing error at best he wanted his own secret society/cult that centers around worshiping his ego and harem

9. Police and FBI were aware as early as the 1990s but did nothing from various factors - he has many lawyers to help him, his social climber help makes connections with powerful people to help him from persecution because he helps him to avoid taxes and until the MeToo movement it was normal for grown man to pursue girls look at any movie, series, literature, video games from the 1980s-2000s this is a classic case of misogyny, sexism and patriarchy
10. When in the 2000s when he finally could have got justice he bribe the police and hire lawyers to destroyed the lives of the victims which lead to a non-persecution agreement where is crimes are fully concealed from the victims and give immunity to any co-conspirators which means Donald Trump is off the books since 2007 plus his new Presidential immunity being a monarch above the law he will never face consequence by the state even with full unredacted files and the jail he went was a private luxury country club where he can leave the facility 12 hours a day six days of week which was confirm he abused another victim during his 12 hour leaves
11. He was a Fascist and Eugenicist who believe in a superior race and was the (one of them) domino effect of cryptocurrency, microtransaction in gaming and gamergate
12. He was very interest in the paranormal, parapsychology and cryonics

If Trump is gonna run for a third term let's look FDR 4th term what he did:
1. Started the Manhattan Project although he died before it was even possible to use as a weapon
2. Let's pressure from reactionary Democrats to replace Henry Wallace to Hanry Truman as Vice President while Wallace was the only Socialist vice president who could have been easily a President he could have prevented the Cold War wanted friendly relationship with Soviet Union, wanted to end Segregation and critical of Capitalist
3. He help with Stalin to prevent any Socialist movement in Western Europe independent of both Western and Soviet control making the Soviet World a quiet allied of a Conservative World Order preventing Greece, Phillipines, France and Italy prevented them becoming Communist
4. The closes FDR implemented Fascism at home was National Recovery Administration which has many similarities to Corporatism which later became unconstitutional and putting Japanese Americans in concentration camps
5. He must look at the most "successful" Fascist states like Peron Argentina (mainly his first time in power) who was in power in 3 different occasions but he must remove his obvious authoritarian tendencies to make it appealing to the mass or China/Taiwan under Chiang Kai-shek (although 1927-1937 was a failed attempt to achieved Fascist state) he was in power for 47 years (1928-1975) reduce to generic anti-communist Nationalist regime or the longest "consistent" Fascist states is Portugal under Antonio de Oliveira Salazar who was in power for 36 years (which is the same length as his Fascist neighbor Francisco Franco Spain) he use Nationalism and the Catholic Church as a means to control the population even whith his disastrous Colonial Wars in Africa
Reminder that Pete Hegseth the second in command in the USA military that since childhood hold racist views, during his time in university defend s@xual assault against people who are unconscious, when join the National Guard the unit he belongs committed war crimes and he defended his buddies of such crimes lead 2 right wing veterans organization and spent there money on parties and getting drunk while yelling Kill Muslims and other Islamophobia, his first books makes a romantic view of the military, Nationalism, defense the Iraq war, traditional family values (despite getting divorced 3 times for having affairs and commitment multiple s@xual assaults against women that his own mother calls him out of this), hates internationalism he is against public education for teaching anti-american values and prefer homeschooling for a Christian upbringing and the pastors he follow have openly supported fascism, Russia,

slavery and wants to remove women's rights to vote and US Confederacy and all this before he publish his 2nd book openly expressed his Fascist Christian Nationalism the first anarchist society in France the Paris Commune showing the world real democracy looks like but sadly we're massacre by Monarchist and the people involved where early pioneers of Fascism Paul Déroulède and Georges Ernest Boulanger Freemasonry having its origins in the end of the early middle ages to early high middle ages in Scotland as a early example of labor union which overtime developed there own Catholic Mysticism, Esotericism and Occultism (this is before the Reformation) the earliest examples of anti-masonic/conspiracies/hoaxes when the Masons were one of the earliest institution to accept Jews in there ranks which started this early distrust that as early in 1736 the Inquisition were looking for them and the Pope Clement XII made a papal bull In eminenti apostolatus in 1738 banning Catholics to become Freemasons, then the Rosicrucians hoax believing there this secret group while in reality was a broad Esoteric Protestant movement where both Masons and Non-Masons involve, early government crackdown believing they have Jacobite influence and early exposes the "true secrets" which all this together will gave birth the many sentiments about the Masons that will later intensify in the next century.
Despite USA-Israel started the violence we must not ignore Iran is a Shia Theocracy this is why the people not states should be defended like Kurdish resistance in Iran for independent Kurdistan, Feminist movement withing Iran and remember Iran Islamic Revolution the moment they took power they massacre communist and Kurds and the most powerful nonstate actors in the world (ignoring Capitalist institutions like Blackrock) Hezbollah and Houthis are reactionary forces who reject egalitarian values even Ismailism the second largest Shia Branche (despite having there problems) are far more progressive:

Now the US move the main defense South Korea has against North Korea to continued the illegal war in Iran but if North Korea took the opportunity to attack and somehow successfully unite Korea under the Kim Monarchy and remember there governments based on Juche a Fascist system where the country is one giant Corporation (Corporatism) to help Kim Dynasty which a desire of Autarky similar to Hitler where should be totally independent from the world. The Kims are the supreme deities of the Korean people, Racial supremacy (minjok) with racial cleanliness with distrust to multiethnic/culture which funny enough Donald Trump has adopted Juche and State Capitalist model under his administration.

2. Trump said if he lost 2016 election he would do a coup like he did in 2020 despite the fact he did lost the popular vote but using the anti-democratic electoral collage won the presidency (other examples like this are John Quincy Adams, Rutherford B. Hayes, Benjamin Harrison and George W. Bush all of them except Adams were Republicans)

3. His disastrousness Covid pandemic response and anti-vaccine views cause more deaths than any country in the world at 1,235,885, during the pandemic was richer from this and scientist were close to vaccine before the pandemic but his administration stop giving funding in 2018 despite Trump was warned by impending pandemic in 2017 but did not listen.

Mark Milley that US troops should shoot them or almost started world war 3 by assassinating Iranian general Qasem Soleimani or made more than 30,000 false or misleading claims during his first presidency or Trump's suggestion to purchase Greenland in 2019 or Trump pardon war criminals

Part 1 Trump Hates His Soldiers/Veterans:

Remember that 62% of the USA Armed Forces population come from poverty so joining the military also know as the poverty draft is one of the few places left to have actual upward mobility and the closes for a socialistic system in USA but Trump the Nazi Monarch hates the soldiers despite all Fascist states requires a strong military/warrior culture to survive unless you are the 35% of the military population who openly express Fascism (like JD Vance and Pete Hegseth) Trump hates the soldiers/veterans all sources:

Only 1 Trump in America has served in the military (Fred Trump, Don's brother, served in the Air National Guard); this spans 5 generations, and every branch of the family tree. In fact, the reason his grandfather immigrated to America was to avoid military service. He refused to sign his party's funding bill, which shut down the government, and forced a branch of the military to go without pay. This branch of military was forced to work without pay, otherwise they would be AWOL. However, his appointees got a $10,000 pay raise. He denied female troops access to birth control to limit sexual activity. He tried to deport a marine vet who is a U.S.-born citizen and Puerto Rican Veterans. When a man was caught swindling veterans pensions for high-interest “cash advances," Trump's Consumer Financial Protection Bureau fined him $1. As a reminder, the Trump administration's goal was to dismantle the CFPB, installing Mick Mulvaney as the director, who publicly stated the bureau should be disbanded. He called a retired general a 'dog' with a 'big, dumb mouth'. He increased privatization of the VA, leading to longer waits and higher taxpayer cost. He finally visited troops 2 years after taking office, but only after 154 vacation days at his properties. He revealed a covert Seal Team 5 deployment, including names and faces, on Twitter during his visit to Iraq. Trump lied to deployed troops that he gave them a 10% raise. He didn't give them a 10% raise (Dec 26, 2018). He initially tried to give the military a raise that was lower than the standard living adjustment. This was before Congress told him that idea wasn't going to work. Then after giving them the raise that Congress made him, he lied about it pretending that it was larger than Obama's. It wasn't. He fired service members living with HIV just before the 2018 holidays. He got three Mar-a-Lago guests to run the VA. He called troops on Thanksgiving and told them he's most thankful for himself. He urged Florida to not count deployed military votes. While in Europe commemorating the end of WWI, he didn't attend the ceremony at a US cemetery due to the rain - but other world leaders went anyway. He used troops as a political prop by sending them on a phantom mission to the border and made them miss Thanksgiving with their families. He stopped using troops as a political prop immediately after the election. However, the troops remained in muddy camps on the border. Trump changed the GI Bill through his Forever GI Act, causing the VA to miss veteran benefits, including housing allowances. This caused many veterans to run out of food and rent. “You can count on us to serve, but we can’t count on the VA to make a deadline,” one veteran said. Trump doubled the rejection rate for veterans requesting family deportation protections. Trump deported active-duty spouses (11,800 military families face this problem as of April 2018). He forgot a fallen soldier's name (below) during a call to his pregnant widow, then attacked her the next day. He sent commandos into an ambush due to a lack of intel, and sends contractors to pick them up, resulting in a commando being left behind, tortured, and executed. (Trump approved the mission because Bannon told him Obama didn't have the guts to do it). He blocked a veteran group on Twitter. He ordered the discharge of active-duty

immigrant troops with good records. He deported veterans (2017-present). He said he knows more about ISIS than American generals (Oct 2016). He said vets get PTSD because they aren't strong (Oct 3, 2016) (note: yes, he said it's 'because they aren't strong.' He didn't say it's 'because they're weak.' This distinction is important because of Snopes). Trump accepted a Purple Heart from a fan at one of his rallies and said: “I always wanted to get the Purple Heart. This was much easier.” Trump attacks Gold Star families - Myeshia Johnson--gold star widow, Khan family--gold star parents, etc. (2016-present). Trump sent funds raised from a January 2016 veterans benefit to the Donald J Trump Foundation instead of veterans charities (the foundation has since been ordered shut because of fraud). Trump said "I felt that I was in the military in the true sense because I dealt with those people" because he went to a military-style academy and that he has "more training militarily than a lot of the guys that go into the military". (2015 biography). For a decade, Trump sought to kick veterans off of Fifth Avenue because he found them unsightly nuisances outside of Trump Tower. “While disabled veterans should be given every opportunity to earn a living, is it fair to do so to the detriment of the city as a whole or its tax paying citizens and businesses?” - 1991. Trump dodged the draft 5 times by having a doctor diagnose him with bone spurs.

Part 5 Trump Hates his soldiers/veterans:
Focusing on veterans and servicemembers, here are some key proposals that should have your attention. From Trump Project 2025

Privatize TRICARE

Replace 80,000 troops with civilians

Reduce the Basic Allowance for Housing by 66%

Stop DoD research into breast, ovarian, and prostate cancer, epilepsy, autism, and other medical conditions

Reduce commissary and exchange subsidy by 20%, and combine commissary and exchange functions

End enrollment in medical care for Priority Groups 7 & 8

Exclude Veterans from receiving disability due to arteriosclerotic heart disease, chronic obstructive pulmonary disease, Crohn's disease, hemorrhoids, multiple sclerosis, osteoarthritis, and uterine fibroids

Limit initial application for service related disability to within 10 years following end of active service

Eliminate concurrent receipt of retirement pay and disability compensation
New analysis be Veteran's Health Policy Institute for soldiers/veteran benefits under Trump
Threats to Veterans' Health and Benefits
Privatization of Services:

Expansion of private contractors for disability claims and medical examinations.

Outsourcing of VA health care to the private sector, reducing investments in VA facilities and potentially leading to closures.

Cuts to Disability Benefits:

Revisions to the VA's disability rating schedule to reduce compensation for future claimants.

Narrowing the scope of service-connected conditions eligible for care and compensation.

Increase in Unaccredited Claims Companies:

Encouragement of for-profit "claim sharks" to replace free, regulated assistance from accredited organizations like the American Legion and VFW.

Reduction of Non-Service-Connected Care:

Restriction of care for conditions not explicitly tied to military service, which could exclude treatment for conditions like cancer or diabetes.

Workforce Cuts:

Reduction of unionized employees and the implementation of measures (like Schedule F) that could allow mass firings of VA staff without cause.

Potential closures of VA hospitals, significantly reducing veteran employment opportunities.

Elimination of Diversity, Equity, and Inclusion Efforts:

Ending initiatives aimed at addressing systemic disparities, such as higher denial rates for Black veterans and improper handling of military sexual trauma cases.

Budget Constraints on Toxic Exposure Benefits:

Scaling back the impact of the PACT Act, which expanded benefits for veterans exposed to toxic substances.

Projected Impact
Health Care Access: Closures and privatization would result in fewer available services and longer wait times for veterans, with private care often proving less effective and more expensive.

Financial Strain: Reductions in disability benefits could push many veterans into poverty, particularly those reliant on benefits for essential needs.

Quality of Care: Privatization and relia
nce on contractors may decrease the quality of care and benefits decisions, leading to more errors and negative outcomes.

The Iran Illegal War once again prove that nukes are useless that many experts point out that the culture and governance of Iran works differently than Fascist states like USA, China, Russia, Japan, El Salvador and etc. that even if you drop multiple nukes it will not end the government like in Vietnam War that experts concluded that nukes are useless against the Vietcong and the Iranian military haven been decentralized (not completely) that every military expert concluded that a decentralized military using asymmetric warfare and guerrilla warfare is impossible to defeat at best to control it in a fix level this anarchist approach to military as the reason USA lost in Afghanistan, Vietnam, Nicaragua (Augusto Sandino), Seminole (the only native american tribe that was never conquered) and Somalia (Battle of Mogadishu)
Trump rhetoric and expressing his monarchist fascism is been around since 2015:

Fascism Originated in USA:

The US was the first country in the world were racism was its foundation instead of a later addition (British/Spanish/Portuguese/France/Dutch/Various Islamic empires) the Founding Fathers (with the exception of Thomas Pained) were slave owning white aristocrats who many believe in a natural hierarchy/aristocracy that any non-white race were inferior and even a disease that must be cured or eradicate people like Thomas Jefferson and Benjamin Rush advocate for eugenics before it was popular and advocate to White Separatism/Supremacy. The Founders always wanted to practice colonialism and imperialism that George Washington believe America is a sleeping giant waiting to be awake and dreams of a United America (the entire western hemisphere under one American Empire that was Jefferson dream), John Adam the 2nd president wanted to colonized Puerto Rico, they always wanted to expanded to the west when Thomas Jefferson who gave birth to American Exceptionalism, Manifest Destiny that Jefferson and other founders/presidents gave a 2 options either force assimilation (which is genocide) or genocide (murder there entire tribes to extinction) that Andrew Jackson was more of a king than president only view genocide as the preferable option. The founders hated democracy and they were very open about it that George Washington said that too much democracy leads to anarchy and early on many were

consider to establish a monarchy it was a very popular opinion among the founders that Alexander Hamilton advocated a Electoral Monarchy system this Hamiltonian Faction was the dominant group during the first, second and fourth Presidency, 21 out of 55 delegates of the constitution which is almost half of the delegates favor monarchism there was Prussian scheme which was a legitimate attempt to establish a monarchy but went nowhere or the civil unrest in America the Newburgh Conspiracy 1783 were a faction withing the mutiny wanted Washington to be king and even in early history Presidents were label as royalty and have titles like your majesty, The Constitution itself advocate a racist goal against African Americans and created the electoral college, gerrymandering, senate and supreme court as check and balance against the will of the people to prevent any actual democracy (direct democracy, consensus democracy, liquid democracy and democratic confederalism), the supreme court has no democratic oversight 9 people hold the position for life appointed by the president instead from the people. The founders have war preparations for the indigenous population if they refuse to give there land to them despite the 374 treaties that USA recognized these indigenous lands as free independent sovereign countries thus the very existence of the 50 states (with very few exceptions) are illegal occupations, George Washington enforcing tax laws and take down the Whiskey Rebellion and Shay's Rebellion or John Adams with the Alien and Sedition Act or Andrew Jackson a king (who did genocide against the indigenous, trail of tears, Seminole Wars, extrajudicial killing by his hands or order people to do it, openly express himself as autocrat that a country needs a tyrant to prevent the will of the people, popularize the president use of the veto, openly ignore the congress and supreme court extending his power) or during the revolution that Massachusetts and Pennsylvania adopt a more anarchist/socialist system of government Washington took it down or when Thomas Pain wrote Common Sense who advocate a proto-socialist government that 2 months later John Adams wrote Thoughts on Government to refute him and establish the tyrannical government that we have today the Monroe doctrine which establish only USA is allow to make colonial and imperial goals in there hemisphere like Mexican-American War, Spanish-American War, colonies Puerto Rico, Cuba, Haiti, Dominican Republic and US Virgin Island. Thomas Jefferson borderline violate the constitution by the Louisiana Purchase this is the same man who rape Sally Hemmings her slave when she was a minor he propose a slave law that any white women who gives birth to mix race child it will not get protection of the law, Jefferson provoke a race war out of fear the Haitian revolution will influence African Americans another example is James Madison, 4th President of the US and Father of the US Constitution, said that a concern of the US political system is to "protect the minority of the opulent against the majority" these early pro-race/colonial/imperial laws and practice influence Nazi Germany and Mussolini Italy and influence Pre-Hitler Germany colonial projects (lead by liberals and progressives btw) even later advocate

White Nationalism, advocate genocide against the indigenous or just plain racist towards African Americans (the first 15 US Presidents, Teddy Roosevelt, Woodrow Wilson, Richard Nixon, Ronald Reagan who committed high treason (Contra affair) and got away with it). The first red scared happen between 1830-1860 when the early Fascist literature was born that advocated the racial superiority of the Anglo-Saxons and its Germanic/Celtic heritage, dreams of eradicate the indigenous once and for all, fears of anarchism/socialism that will take there slaves, advocate a strong centralized government, some want to return to feudalism and expand the empire to Latin America like William Walker who took over parts of Mexico, become dictator of Nicaragua (and reestablish slavery there) and kill 10% of Costa Rica population. The US Confederacy was the logical endpoint of Jeffersonian democracy that after its fall the most frauded election in American history and the closes was the 1876 presidential election which Rutherford Hayes lost the popular vote but won by 1 electoral vote by making a shady deal behind the scenes that if you put him in power he will end Reconstruction which he did which ended any potential civil rights for African Americans for the next 90 years he suppress 2 anarchist societies (South Carolina Commune and St. Louis Commune), he establish Jim Crow allow slavery in the prison system legally, the whole history of KKK and like the Nazis the confederates exiled to Brazil to make there colonies that still exist today and before Trump there were 3 successful coups which were Fascist (Louisiana 1877, Eugene Talmadge coup in Georgia 1933 and Wilmington 1898), make human zoos exhibit Puerto Ricans only 6 years after invading PR, sterilized its citizens 30 years before the Nazis copy its methods or the Business Plot a attempted Fascist coup out of fear FDR will turn America Communist or the only reason Hitler and Mussolini got power was because they were funded by American and British Capitalist out of fear of socialism and fear of non-whites become power nations (like Japan and Ethiopia) to rival them (at first they were ok that Japan attacks China and Korea because it suppress communist influence and they see it as no different as Europeans attacking Africa, even the Soviet Union supported Mussolini invasion of Ethiopia). Fascism was born in USA and directly influence Nazi Germany

Lesser known versions of fascism that some people mistake them as communist/socialist/anarchist:

1. National Anarchism/Anarcho-Fascism - ex. Italian Regency of Carnaro, Troy Southgate (esoteric occultist pagan) and Keith Preston
2. Peronism - Juan Peron 3 times in power
3. Burmese Way to Socialism - Chit Hlaing mix Marxism, Titoism, third positionist state-corporatism, Mao’s new democracy and National Bolshevism also it banned Unions
4. Ba'athism - in Iraq and Syria (especially under Hussein) developed by Michel Aflaq, Sami al-Jundi and Zaki Arsuzi who use revisionist Marxism but took direct inspiration to

Nazi Germany like Arzuri believe the racial superiority of Arabs also advocate and translate Fascist/Nazi books (Mein Kampf, The Myth of the Twentieth Century and The Foundations of the Nineteenth Century)
5. Juche - North Korea official state philosophy which blends Japanese Fascism, Autarky and Monarchism with Soviet Aesthetics
6. Revisionist Zionism - Zionism itself was already proto-fascist since Theodor Herzl but this version and its successors like Kahanism, Revisionist Maximalism and Sternism are the most explicit
7. Pol Pot - Use communist aesthetics mix with ethno-ultranationalism, autarky and view Cambodia as a pure nation of foreign influence and Cambodian as ethnic superior and he was more influence by the Jacobins during the French Revolution than Marx and Lenin

Nukes ought to be abolish only 8 countries in the world that refuse the nuclear ban treaty (USA, Russia, China, France, UK, Pakistan, India and North Korea) which 90% of all nukes are from USA and only 1 country that illegally has nukes Israel which also illegally give material for nukes to Apartheid South Africa (ruled by a Nazi at the time). People advocates using AI for nukes like Henry Kissinger advocate the idea (i guess nobody learn from the movie War Games) USA and Russia has a launch on warn policy that only 1 person (the president) with no democratic oversight to use a nuke that can have 100 megatons of TNT plus the existences of drones, hyper sonic missiles, nuke carrying submarines which is completely undetectable, all heads of states by there own admission are unprepared, unqualified and uninform about nuclear war and refused to learn about it. Nukes control by a small undemocratic mindless group that only serves the interest of the state with brainwashed that is normal to aimed at wiping out half of the global population which in a hypothetical nuclear war the US president has 3 minutes to decide if we should nuke back while his top military officials screaming at the president kill half of the human population before they die in a nuclear holocaust because maintaining hierarchy and borders is more important than life itself this government system has a built in pro-genocide mentality this bureaucracy will kill untold billions in cold blood and its by design and the doomsday clock us currently 85 seconds to midnight this is closer than even the Cuban Missile Crisis this is ignoring USA lost 6 nukes and never recover and 32 broken arrow incidents also the worlds best defense

system against nuclear strikes are useless like intercept systems don't work as good as the state admits. Whistleblower Daniel L. Davis show that the entire missile defense program is a fraud that interceptors has at best 57% accuracy, early warning systems have similar problems which if a missile have chafe which confused the system which prevents any defense to take it down and is terrifying 6 out of 9 countries that has nukes are currently ruled by Fascist leaders/administration (USA, Russia, China, India, Israel and North Korea) the one way for a quick reaction using drones that intercept ICBM before its too late but was rejected because its too expensive (Capitalism keeps ruin everything) or have THAAD batteries to protect nuclear plants (its useless against hyper sonic missiles btw) but also got rejected although is currently use in Ukraine this system is control in secrecy with no democratic oversight to launch at a minutes notice these people where train to kill half of humanity by one Air Force personnel even admits that they will not question they are going to destroyed human civilization they blindly will follow orders they will not hesitate to kill 5 billion people

The USA during the era of the founding fathers (the first 6 presidencies) was dominated by 2 factions the Hamiltonians a anti-democracy/elitist/pro-monarch group (John Adams, George Washington, James Madison and Alexander Hamilton) and Jeffersonian Democracy a proto-fascist, racial supremacy/separatism/segregation and expansionism (Thomas Jefferson and James Monroe) both promoted imperialism (empire of liberty), colonialism, slavery, genocide to indigenous and distrusts any democratic movement (Shay's Rebellion, Pennsylvania, Massachusetts and Mississippi adopted anarchist/socialist/Thomas Pain inspire government and Iroquois Confederacy) during this time 1824 Presidential Election was the first election when someone lost the popular vote and undemocratic electoral vote but still got in office (John Quincy Adams).

New FBI data correlates city crime to income inequality - David Luther
Study: Income Inequality is tied to Increase in homicides - Tara Culp-Ressler

study shown that children functions this way and using hierarchical system bring less satisfactory to the children and offering rewards and competition has reduce peoples creativity and effectivity in work while people with no reward thus no competition have better creativity and does more effective work. Studies show that children under a competitive hierarchical environment among two groups shows that they become more hostile and violent while co-operation and eliminate competition/hierarchy shows better relationships, less violence, more trust among individuals and better effective work and it has shown that having too much power like entrepreneurs are more likely to become sociopaths, have less empathy and more likely to use immoral actions to keep there power.
While some will argue that children who embrace human instinct and primal behavior at its fullest and many will say of let them alone without a higher power, hierarchy or any form of domination will kill each other like Children of the Flies but that is not true because in real life where the scenario when 5 boys that were stranded in 1965 who live in a stranded island for 15 months. Did they kill each other or create a brutal hierarchy? No instead of the pseudoscience of Social Darwinism and survival of the fitness but instead they instantly use cooperation and mutual aid, they created a garden, using primitive technology to have easy access to water, build chicken pens, build a fire that is burning permanently and collectedly own the means of there labor.

Make sure of victory! As if there were any way of forming a free commune without laying hands upon property! As if there were any way of conquering the foe while the great mass of the people is not directly interested in the triumph of the revolution, by seeing that it will bring material, moral and intellectual well-being to everybody! T h ey tried to consolidate the Commune f i rst and defer the social revolution until af t erward, whereas the only way to go about it was to consolidate the Commune by means of the social revolution.
-T h e same thing happened with regard to the principle of government. By proclaiming the free Commune, the people of Paris proclaimed an essential anarchist principle, which was the breakdown of the state.. .
"And yet, if we admit that a central government to regulate the relations of communes between themselves is quite needless, why should we admit its necessity to regulate the mutual relations of the groups which make up each commune? … T h ere is no more reason for a government inside the commune than for a government outside. (T h e Commune of Paris, Selected Writings on Anarchism and Revolution)
-The Paris Revolution is federalist … in the sense given it years ago by the great socialist, Proudhon." It is "above all the negation of the nation and the State." (The Paris Commune of 1871: The View From the Left)

- Demands in the Commune's Manifesto to the French People of the 19thApril, 1871, that might have been writ t en by Proudhon himself. (George Woodcock)

(The lessons of the Makhnovist movement are exceedingly rich. Simply put, the Makhnovshchina show that anarchism is a viable form of revolutionary ideas and can be applied successfully in extremely difficult circumstances. They show that social revolutions need not consist of changing one set of bosses for another. The Makhnovist movement clearly shows that libertarian ideas can be successfully applied in a revolutionary situation).

Antisemitism has it origins in Christianity whre Paul's Letters and Mark blame the Jews for Jesus death, early Christian like Justin Martyr blame the Jews for the death of Christ and Christians persecucion and Augustin of Hippo claims the reason Jews are not exterminate because they are a warning to Christians if they reject God which laid the seeds of discrimination we see in the Crusades, Martin Luther antisemitic theology which influenced Nazi Germany

If there are rocks, then there is a material world. There are rocks, therefore there is a material world. This argument is as sound as any argument can be. And such arguments are beyond dispute. Similar arguments can be articulated for the other metaphysical claims Moore lists. Philosophers are wont to say that the second premise in the above argument, though true, is not philosophically satisfactory because it is not a priori and philosophy cannot rest on any empirical results. If so, it is so much the worse for philosophy. For the above argument is as sound as any argument can be and such an argument does not leave room for doubt - Kay Nielsen, Meta-philosophy, Once Again

That as the article on distribution of the seven characters of Hunter-Gatherer supernatural/spiritual beliefs" concludes that gods can emerge regardless of other aspects of religion.
https://www.huffpost.com/entry/the-ma...
Hunter-gatherer societies were as stated the egalitarian nature of their societies had less use for high gods. In the development of hunter-gatherers and the semipermanent ritual/temple sites where it appears various groups of hunter-gathers mingled and shared ideas could explain the transition towards a more unified prosocial belief. That a place like Catal Hyuk could then progress to a more state-oriented religious society. Essentially we see a transition of Hunter-Gatherers to offset eventually in the steady hybridization of hunter-gather-farming societies. That as populations grew hunter-gathers were less needed and assimilated into an agricultural society that leads to more advanced prosocial and religious belief…ultimately stand-alone high gods became popular - Marquis Amon

The Idea of the World: A Multi-Disciplinary Argument for the Mental Nature of Reality - Bernardo Kastrup
Notes:
As Richard Carrier noted that the idea of a living in a simverse is happening sonner than we think and in his words about AI
(We actually won't have to know "why" a brain works to virtually recreate one. All we have to do is model the interaction system and the effect emerges. This is why I suspect the first AIs we have will simply be replicated human minds; since all we have to do is copy the parts, we don't ever have to know why they in combination work.
We've already seen something like this happen. Modern cellphone antennas were designed by AI, and we actually don't know why they work. They just do. We might know now, I haven't checked up on the state of research; but when the design was first rolled out and tested, we didn't know the why. It's thus also possible (current sub-sentient) AI will invent full self-referential consciousness and we won't know how it did that or why the resulting consciousness works. And this could even happen by accident (e.g. a sufficiently unregulated Siri system could become unexpectedly sentient at some point, if we aren't monitoring to hobble that; as happened for instance when a recent AI experiment

resulted in two computers suddenly inventing their own secret language and talking to each other in it—at which point the experimenters shut the whole thing down; because, that's scary).
And "analog" is irrelevant. Everything is quasi-digital at some reductive scale (quantum mechanics defines all physics, including of neurons, even of gears in analog computers), and Turing proved every computer can be replicated with a universal computer ("Turing machines," as most computers today now are). That includes any analog computer. One just needs to choose at what level of resolution one wants to implement the replication; and I doubt we'll have to resolve it all the way to the quantum level. Neuroscience already has found, in multiple ways, that the human brain operates on a system of threshold states that are already quasi-digital)

During the American revolution many working class people prefer anarchism and especially in Massachusetts and Pennsylvania have for a short time an anti-authoritarian direct democracy (anarchism) and Thomas Pained ideas of socialism respectably and after the revolution we have the Shay's Rebbellion was the earliest anarchist or anti-authoritarian revolution in the words of Murray Bookchin:
Massachusetts, conceivably, could have become a confederal democracy, not unlike early Switzerland, and yeomen throughout New England could have tried to emulate them. In any case, together with the revolutionary events in Pennsylvania during the war, Shay's rebellion was as close as America came to an insurrectionary third revolution.

The sum of it all is that the absolute is not forced on our belief by logic, that it involves features of irrationality peculiar to itself, and that a thinker to whom it does not come as an 'immediate certainty'...is in no way bound to treat it as anything but an emotionally rather sublime hypothesis. As such, it might, with all its defects, be, on account of its peace-conferring power and its formal grandeur, more rational than anything else in the field. But meanwhile the strung-along unfinished world in time is its rival:reality MAY exist in distributive form, in the shape not of an all but of a set of eaches, just as it seems to—this is the anti-absolutist hypothesis. Prima facie there is this in favor of the eaches, that they are at any rate real enough to have made themselves at least appear to every one, whereas the absolute has as yet appeared immediately to only a few mystics, and indeed to them very ambiguously. The advocates of the absolute assure us that any distributive form of being is infected and undermined by self-contradiction. If we are unable to assimilate their arguments, and we have been unable, the only course we can take, it seems to me, is to let the absolute bury the absolute, and to seek reality in more promising directions, even among the details of the finite and the immediately given - William James, A Pluralistic Universe (1909)

Roudinesco's biography of Freud - [I]f Jung could accept this collaboration without hesitation, it was only because his conception of the unconscious was for the most part in harmony with the one advocated by the partisans of "Aryanized" psychotherapy. Taking up a theory of the difference between races, Jung saw the individual psyche as the reflection of the collective soul of populations. In other words, far from being an ideologue of racial inequality, along the lines of Georges Vacher de Lapouge or Arthur de Gobineau, Jung saw himself as a theosophist in search of a differential ontology of the psyche. Thus he wanted to establish a "psychology of nations" capable of accounting both for the fate of the individual and for the collective soul.... Armed with his archetypal psychology, Jung put the Jews in the category of uprooted peoples, condemned to wander, and all

the more dangerous in that, to escape their psychological denationalization, they did not hesitate to enter the mental, social, and cultural universe of nonJews
